
PROFESSIONAL PROFILE

Mr. Thibault has twelve years of experience in wireless telecommunications engineering and management. As senior project manager, Mr. Thibault is responsible for the preparation of lease exhibits, attendance at zoning and permitting hearings, preparation of zoning and construction documents including plans, survey, technical specifications and coordination of sub contractors. He has a wide array of experience in the wireless communications field including preparation of construction cost estimates, drainage reports, construction control services, photo simulations, viewshed analysis, and management and coordination of NEPA/SHPO, Phase 1, geotechnical services, wetland filings, and other services typically supplied by sub consultants. Below is a sampling of his experience.

REPRESENTATIVE PROJECT EXPERIENCE

MetroPCS, Various Locations, MA. *A&E Project Manager.* Responsible for managing the development team for 145 sites in the Worcester Region. Duties include working parallel with the designated Site Acq Lead to lease/permit each site, attend team meetings and site design visits, and track all A&E functions in the MetroPCS database. Each of the 145 sites require Metro Packs; Phase 1s and NEPAs (order and track all deliverables); Structural (order, track and review all levels of structural per ring for collocations with upgrades for example monopoles, towers, water tanks, smokestacks, and steeples); and ZDs/CDs (order, track the process flow, and attend all site visits as required). Client: MetroPCS

T-Mobile, Various Locations, MA, RI, NH. *Project Manager.* Responsibilities include engineering design and management for the installation of multiple telecommunication sites, as well as the preparation of zoning drawings, construction drawings, photo simulations, construction control services, removal bond estimates and utility design/coordination. Also responsible for the timely delivery of drawings to the client as well as uploading all documents to the client managed intranet Client: T-Mobile

National Grid Wireless, Various Locations, MA, RI, NH. *Project Manager.* Responsibilities include engineering design and management for the installation of multiple telecommunication sites, as well as the preparation of zoning drawings, construction drawings, photo simulations, construction control services, removal bond estimates, coordination of environmental services, including Phase 1 & NEPA/SHPO, Wetland filings, resistivity testing and GPR studies, and utility design/coordination. Client: National Grid Wireless

General Dynamics- Nextel, AT&T, Cingular, Various Locations, MA, RI, NH. *Project Manager.* Responsibilities include engineering design and management for the installation of multiple telecommunication sites, as well as the preparation of lease exhibits, zoning drawings, construction drawings, photo simulations, construction control services, and utility design/coordination. Also responsible for maintaining and updating the tracking system for all deliverables and submitting revised tracker on a weekly basis. Client: General Dynamics Network Systems

Computer Photo Simulations, Various Locations, MA, ME, NH, CT, RI. *Staff Engineer.* Responsible for the creation of computer renderings to simulate proposed wireless facilities. Responsibilities included performing balloon tests, viewshed analyses, field photography, computer renderings, and the creation of full size presentation boards to display areas of visibility. Clients: GD/Nextel Communications, National Grid Wireless, Cingular Wireless, Verizon Wireless, Sprint PCS, American Tower Corporation, AT&T Wireless Services, Nextel Communications, and T-Mobile

Cingular Wireless, Various Locations, MA, RI. *Project Manager.* Responsibilities include engineering design and management for the installation of multiple telecommunication sites, as well as the preparation of lease exhibits, zoning drawings, construction drawings, drainage reports, photo simulations, and viewshed analysis. Also responsible for maintaining and updating the tracking system for all deliverables and submitting revised tracker on a weekly basis Client: Cingular Wireless

Nextel Communications, Various Locations, MA, RI, NH. *Project Manager.* Responsibilities include the preparation of lease exhibits, zoning drawings, construction drawings, photo simulations, and utility design/coordination. Also responsible for maintaining and updating the tracking system for all deliverables and submitting revised tracker on a weekly basis. Client: Nextel Communications

Verizon Wireless, Various Locations, MA, RI, NH. *Project Manager.* Responsibilities include the preparation of zoning drawings, construction drawings, drainage reports, coordination of wetland scientists, utility design/coordination, and mechanical design of natural gas/LP generator systems. Client: Verizon Wireless

EDUCATION

1996/Mechanical Engineering/Worcester Polytechnic Institute, Worcester, MA
